

HSUHK Social Innovation Competition 2021 Pitching Competition and Awards Presentation

posted in: Completed Event, Event Highlights, News and Event Highlights

The 12 teams' amazing pitching brought the [HSUHK Social Innovation Competition 2021](#) to a successful completion!

Our 31 participating students are all winners here. They, together with over a thousand students, enriched themselves through our 7 theme-based and skill-based workshops, from November 2020 to February 2021. All took home valuable insights on the development of the three targeted Sustainable Development Goals (SDGs, Goals 3, 11 and 12), the essence of social innovation, research techniques, proposal writing and pitching skills.

Congratulations on their superb performances, from writing a concrete proposal to shining on our online stage with their three-minute pitch! On top of their well-deserved cash prizes, let's show some love to the following awardees!
