Hang Shin Link, Siu Lek Yuen, Shatin, N.T., Hong Kong

WELCOME BY THE PRESIDENT

On behalf of The Hang Seng University of Hong Kong (HSUHK), I take great pleasure in welcoming you to the Honours Academy (HA), an incubator for future servant leaders.

As a pioneering and visionary private university, HSUHK established the HA in 2020, the first and only of its kind initiated by a Hong Kong higher education institution. Extending on the University's unique "Liberal + Professional" education model, the HA aims to nurture high-achieving, high-potential and highly motivated students to become outstanding public leaders, who can direct positive changes in the local and global communities.

Adhering to this mission, each year the HA welcomes a cohort of around 20 rigorously-selected year-two undergraduate students to go through a three-year extra journey of focused leadership training. It comprises an innovative, interdisciplinary and policy-oriented curriculum as well as diversified experiential development opportunities. Special gratitude to our HA Professional Fellows, who are prestigious leaders from various sectors, serving as mentors of our HA students. Also, I sincerely appreciate our devoted faculty to offer independent research supervision as HA Academic Fellows.

With the joint effort from HSUHK and leaders from the community, I believe our HA Students will be equipped with both the skill sets and mindsets for a lifetime of service achievement. It is my highest hope that after 3 years of rigorous HA training, our HA graduates will become distinguished servant leaders in their chosen fields, serve others with their knowledge and expertise, and take the lead to make a better world.

GREETINGS FROM HEAD OF HONOURS ACADEMY

Welcome to the Honours Academy (HA) of The Hang Seng University of Hong Kong (HSUHK). As the Head of the HA, I am excited to introduce this innovative student development programme in Hong Kong. The HA is founded with the goals to bring together resources inside and outside of HSUHK in a systematic manner for talent development. We are committed to nurturing future leaders who will create a positive impact on society, both locally and globally.

The HA is built on the excellent foundation of HSUHK's academic diversity and seeks to develop our homegrown high-achievers through an innovative and flexible interdisciplinary curriculum structure. While our students pursue diverse majors, the HA serves as a hub to inspire them to think broadly and collaborate constructively with each other with the concerted support and efforts across different units in HSUHK. This unprecedented initiative in HSUHK reflects our dedication to education.

Several elements set us apart from other local higher education programmes, including tailor-made modules that build interpersonal and social commitments; scholarships; prioritised and subsidised outbound experiential learning opportunities; guided senior research projects; mentoring by our star Professional Fellows, supervision by renowned Academic Fellows and honour recognition upon graduation.

As part of our prestigious mentoring programme, HA Students will benefit from in-depth interactions, such as job shadowing, with our HA Professional Fellows, who are leaders in their respective industries. HA Students are expected to gain insights into their career development through personal guidance from these experienced mentors. Other than real-life business exposure and experiential learning opportunities, HA Students will also conduct academic research projects guided by HA Academic Fellows, distinguished scholars in HSUHK. These skills prepare our HA Students to analyse and solve social and global problems with sound, structured and tested knowledge.

In the HA learning journey, I encourage our carefully selected HA Students to make full use of our highly valued resources to grow academically, professionally and personally. I believe that the benefits and blessings of being an HA Student will last long after graduation.

Ultimately, admittance to the HA is a recognition of a student's academic and personal achievements. I hope to welcome students to the HA who aspire to reach their highest potential.

VISION

As the pioneering initiative in local higher education institutions, the HA, capitalising on our University’s “Liberal + Professional” education model, aspires to enhance the undergraduate experience for motivated, high-ability students at HSUHK, by building a community of intellectually curious young scholars with academic excellence, global competencies and civic leadership to create leading impacts on society in support of the social and economic developments locally and globally.

MISSIONS

- To provide an innovatively and flexibly designed interdisciplinary curriculum for promising students to become future global leaders;
- To develop a vibrant and supportive community of HA Students with academic excellence, empathy for communities, an international perspective, leadership and civic engagement;
- To provide a creative and encompassing education dedicated to life-long learning and positive social impact; and
- To encourage undergraduate research, interdisciplinary studies, and creative education.

ADMISSION

The Honours Academy (HA) opens the door to a world of accomplishment for students. If they aspire to achieve academic excellence, global competencies and civic leadership, the HA is going to be their new home, for their three-year HA education with us, and for their lifetime with a world full of opportunities.

The HA at HSUHK is assembling the most promising students each academic year, around 20 beginning year-two students with a minimum of 3.30 cumulative GPA. Students are invited to join a community of young scholars who are all driven by a commitment to academic excellence, global competencies and civic leadership.

We select the finest, because we offer the finest: the finest educational experiences and resources for our high-ability students. Upon each application, we will conduct a thorough review of their academic and extracurricular performance, personal statement, recommendation and admission interview. To gain the best HA experience, students need to accomplish every single step in our well-planned curriculum.
