WELCOME BY THE PRESIDENT

Professor Joshua Mok
President

I am delighted to welcome the 7th Cohort of students to Honours Academy (HA). Established by The Hong Kong University of Hong Kong (HSUHK) in 2020, HA is the first programme of its kind initiated by a Hong Kong higher education institution. Building on HSUHK's distinctive "Liberal + Professional" education model, HA nurtures high-achieving, high-potential and highly motivated students into future leaders with a commitment to contributing to local and global communities.

Each year, HA selects around 20 outstanding year-two and year-three undergraduate students to embark on a two- to three-year journey of focused leadership development. Through an innovative and policy-oriented curriculum, experiential learning, independent research projects, community engagement initiatives and mentorship,

students develop the knowledge, skills, values and global vision to become responsible leaders and caring professionals. My sincere gratitude goes to our HA Professional Fellows and Academic Fellows, whose dedicated mentorship and guidance are invaluable to our students' development.

In today's rapidly changing and interconnected world, leadership is not only about achievement, but also about service and responsibility towards society. The spirit of "Care for Learning, Learning to Care" lies at the heart of HA's mission, which encourages students to take the lead, explore new perspectives, and transform learning into actions to address pressing societal needs and human challenges and drive positive impacts in the world around them.

Together, let us continue to inspire the next generation of leaders to lead with purpose, serve with compassion, and contribute their talents towards building a more inclusive, sustainable and connected future.

MESSAGE FROM FOUNDING HEAD OF HONOURS ACADEMY

Welcome to Honours Academy (HA) at The Hong Kong University of Hong Kong (HSUHK). As the Founding Head of HA, I am excited to introduce this pioneering talent development programme in Hong Kong. HA was established to bring together resources across HSUHK and beyond in a systematic and purposeful manner for talent development. We are committed to nurturing future leaders who will make a positive impact on society, both locally and globally.

HA is built on the excellent foundation of HSUHK's academic diversity and seeks to develop our homegrown high-achievers through an innovative and flexible interdisciplinary curriculum structure. While our students pursue diverse majors, HA serves as a hub to inspire them to think broadly and collaborate constructively with one another. With the concerted support and efforts across different units in HSUHK, this unprecedented initiative in HSUHK reflects our dedication to developing innovative and responsible young talents.

Professor Jeanne Fu
Vice-President
(Learning and Student Experience)
Founding Head of Honours Academy

Our programme features impactful modules, experiential learning, community engagement, service leadership, senior research projects, and mentoring by our Professional and Academic Fellows. Students gain practical insights from industry leaders and learn from our scholars about rigorous research.

I warmly welcome our new students to the HA family. Through the diverse learning opportunities, meaningful experiences, and supportive community at HA, I look forward to seeing them build resilience, unlock their potential, and craft their own unique leadership journeys.

GREETINGS FROM HEAD OF HONOURS ACADEMY

Back in February 2020, HA began with a simple belief: we are investing in the future; we are investing in real leadership. The return is not only in achievements today, but in the people our students become, and the impact they will carry forward for years to come.

As we enter our seventh year, the campus landscape around us continues to shift. People move on, roles change, and seasons turn. Things may change, but the bond remains.

What also remains unchanged is our HA's heart: to nurture future leaders with global vision and local spirit: young people who will contribute to HA, HSUHK, and the wider community. This is made possible by a strong and growing ecosystem, led by our Founding Head and now Vice President (Learning and Student Experience), Professor Jeanne Fu, together with our HA Heads, Board Members, Academic Fellows, Professional Fellows, our dedicated HA Secretariat Team, and a living bridge between generations: graduates who return as mentors, and senior students who walk alongside juniors as buddies.

At HA, when one of us is struggling, the family does not look away. When one of us succeeds, the family celebrates.

To everyone reading this: I invite you to become a part of this family, or at least to get to know HA beyond the idea of "elite students". Our HA family will challenge you, change you, and hold you.

Welcome to the Honours Academy, a place where dreams take flight, and where family is more than a word.

Dr Holly Chung
Head of Honours Academy

VISION

As the pioneering initiative in local higher education institutions, HA, capitalising on our University’s “Liberal + Professional” education model, aspires to enhance the undergraduate experience for a select group of high-achieving, high-potential and highly motivated students at HSUHK, by building a community of intellectually curious young scholars with academic excellence, global competencies and civic leadership to create positive impacts on society in support of the social and economic developments locally and globally.

MISSIONS

- To provide an innovatively and flexibly designed interdisciplinary curriculum for promising students to become future global leaders;
- To develop a vibrant and supportive community of HA Students with academic excellence, empathy for communities, an international perspective, leadership and civic engagement;
- To provide a creative and encompassing education dedicated to life-long learning and positive social impact; and
- To encourage undergraduate research, interdisciplinary studies, and creative education.

BLESSINGS FROM THE 4TH COHORT

When we first entered university, we were all still so young. Back then, did we know what kind of people we would become four years later? No, we did not. Did we know whether graduation would bring us flowers or cold stares? No, we did not.

People are tempered by trials. We have experienced confusion, anxiety, unease and the struggles that come with this stage of life. Yet, it is precisely these experiences that have given us the chance to become better versions of ourselves.

So, were these four years not worth it?
They were.

Arti Liu

Bachelor of Arts (Honours) in Chinese

I embraced my possibilities and unleashed my potential. Along the HA journey, I met new companions and, most importantly, discovered a new me. Now it is your turn: take that leap, let yourself be scared, and embrace the unknown. Within fear lies growth, within possibility lies transformation. May the HA spirit guide you to unlock your remarkable journey. And if fear visits, remember to breathe in, breathe through, breathe deep, breathe out!

Nicole Chan

Bachelor of Business Administration (Honours) in Corporate Governance and Compliance

As I graduate from the Honours Academy, I realise this isn't an ending but my new beginning. I've learned to embrace uncertainty, to lead with humility, and to find strength in failure. I leave not with all the answers, but with better questions. I'll carry the courage to be different and the kindness to lift others along the way. Thank you, HA. Now, I walk forward with my own light. So, to future HA students, here is my blessing: embrace the hard days, stay curious, stay kind, support each other, and never fear being the beginner.

Para Cheng

Bachelor of Business Administration (Honours) in Finance and Banking

University, the universe of wisdom, is a wonderful place for exploration. It is easy to fade into the sunset, but never forget you are always the sun. Be kind. Be happy. Time flies. I am truly grateful for all treasured memories. Warm wishes.

我向它大聲呼喊——
不！
我討厭淺薄的春天
我要起舞
在每個結冰的湖面之上
劃過的每顆音符 都作數
擲地 總有聲

酣暢淋漓的人
不止于頃刻的眼淚

來一碗橘色刨冰罷
齊醉倒在
冰涼的夕陽之下
——〈盡興〉寫於二零二六立秋

Tracy Cheng

Bachelor of Arts (Honours) in Chinese

My HA journey has been full of laughter, teamwork, and unforgettable memories with my buddies. We turned group projects into mini adventures, swapping ideas over bubble tea runs and cheering each other on through every presentation nerve and last-minute panic. I still smile thinking about the shared relief when a project finally clicked, and the way we'd celebrate even the smallest wins like they were huge victories. It was that I learned to seize every moment of joy that made this journey so special.

To my HA family, thank you all for the friendships, the fun, and the memories I have to look back on forever. You have shaped not just my academic journey, but who I am as a person: more confident, more curious, and more ready to embrace whatever comes next. To future HA cohorts: cherish your people, embrace every opportunity and never let a good moment pass you by. Carpe diem!

This journey was an invitation for me to grow, explore, and connect. I embraced every opportunity to step beyond my comfort zone, whether through exchange, leadership, or new challenges. I treasured the experiences that shaped me and the HA family that supported me every step of the way. May you too find the courage to say yes, the strength to persevere, and the joy of walking this path alongside kindred spirits.

Being part of the Honours Academy has, whether looking back or ahead, been one of the most transformative and thrilling chapters of my academic journey. The interdisciplinary projects, the supportive community, and the constant push to think deeper have shaped both my academic growth and personal resilience. I'm proud of all I have done here, especially those challenges tackled in the final-year project and the friendships forged along the way. Grateful to have walked this path, I hope the HA spirit of curiosity, excellence, and mutual support will live on to inspire every student who follows.

Throughout my HA journey, I have been thankful for every opportunity, every person I have met, and even every challenge that came my way. Each experience was a valuable lesson that helped me grow, understand myself better, and become more mature. Thank you for all the support, precious memories, and everything, HA. Wishing you all the best!

In such a convoluted world, recognise that noise is just noise. Do not let others dictate your path or define your worth. You must focus entirely on what matters, identify what needs to be done, and execute it to the best of your ability. Ultimately, avoid comparing your journey to anyone else's because a race is never won at the starting line. Success is achieved for those who lead at the finish.

Bachelor of Business Administration (Honours) in Global Business Management

Over the past few years, I always felt lost about the future, wondering if I was on the right path, worrying about taking detours. But don't be afraid of "detours". Explore boldly with all your heart. Every experience becomes precious wisdom that shapes us and brings us closer to our dreams. I'm deeply grateful to HA for giving us opportunities to try new things and explore the world. It is these experiences that have made me who I am today.

The road ahead is long. Never forget your original aspirations.

Do not hesitate to step out—every step becomes a milestone of success. No matter how small the step, you will thank your past self. Even if you doubt whether joining HA is worthwhile, the answer will reveal itself as you walk the journey. Remember, you are never alone; the HA family always has your back. When graduation arrives, the HA chapter gracefully concludes, leaving footprints of growth. I am deeply grateful to everyone who inspired, encouraged, and taught me. May the HA spirit continue to shine and empower future achievers!

ADMISSION

Honours Academy (HA) opens the door to a world of accomplishment for students. If they aspire to achieve academic excellence, global competencies and civic leadership, HA is going to be their new home, for their two or three-year HA education with us, and for their lifetime with a world full of opportunities.

HA at HSUHK is assembling the most promising students each academic year, around 20 beginning year-two and year-three students with a minimum of 3.30 cumulative GPA. Students are invited to join a community of young scholars who are all driven by a commitment to academic excellence, global competencies and civic leadership.

We select the finest, because we offer the finest: the finest educational experiences and resources for our high-ability students. Upon each application, we will conduct a thorough review of their academic and extracurricular performance, personal statement, recommendation and admission interview. To gain the best HA experience, students need to accomplish every single step in our well-planned curriculum.
